

## RSP Licence Fee & Datafeeds Charge

### RSP Licence Fee

The RSP Licence Fee is an annual fee payable by all third parties who receive a regular feed of RSP Licensed Data (fares, timetable and/or routeing guide data) and is determined by the frequency with which this data is supplied or received.

RSP invoice out the Licence Fee on the same date that both parties sign the RSP Data Licence, and will advise the Licensee of the Licence Fee for the following financial year by the end of February each year. The RSP Licence Fees for 2014/15 are shown below:

Frequency of Licensed Data (Core) Supplied	RSP Licence Fee
	<b>2014/15</b>
Monthly	£1,036 per annum
Daily or Weekly	£5,180 per annum

### RSP Datafeeds Charge

The RSP Datafeeds Charge is determined by the type of data and frequency with which the Licensee receives the following core RSP Licensed Data:

- **Train Timetable Data** comprising of rail timetable files as specified by RSP from time to time in document RSPS5046;
- **Fares Data** comprising of RSP fares files as specified by RSP from time to time in document RSPS5045; and
- **Routeing Guide Data** comprising of RSP routeing guide files as specified by RSP from time to time in document RSPS5047.

The current RSP Datafeeds Charges by type and frequency are shown below:
