Instructions to embed our online carbon calculator onto your website

April 2025

National Rail Green Travel Data

Introduction

Follow this simple guide to embed our Green Travel Data carbon calculator onto your website.

Step 1: Copy the Embed Code

The embed code for our carbon calculator is:

```
<iframe src="https://www.raildeliverygroup.com/gtd-carbon-calculator" style="display:
block;">
  <p>Your browser does not support iframes.</p>
</iframe>
```

Step 2: Insert the Code into Your Website

Open your website's HTML file in your preferred editor.

Then find the section where you want the carbon calculator to appear and paste the embed code directly into that section.

You may also need to adjust the HTML settings for your CMS.

Step 3: Test your website

Save your file and refresh the page. Ensure the calculator displays properly and test it on different devices to confirm responsiveness.
